AT YOUR FINGERTIPS, ANYWHERE, ANYTIME

GrandRounds

On November 30th, SIU Academy will be hosting its last eGrand Rounds event of the year – a series of surgeries live from Salzburg, Austria.

Join us online at **7:45 AM Central European Time (UTC +1)**. This session will offer practical tips and tricks for the following procedures:

- transurethral resection of bladder tumor (TURBT)
- bipolar transurethral enucleation (BipolEP)
- retrograde intrarenal surgery for upper urinary tract urothelial carcinoma (RIRS UTUC)
- minimally invasive percutaneous nephrolitholapaxy medium (MIP M).

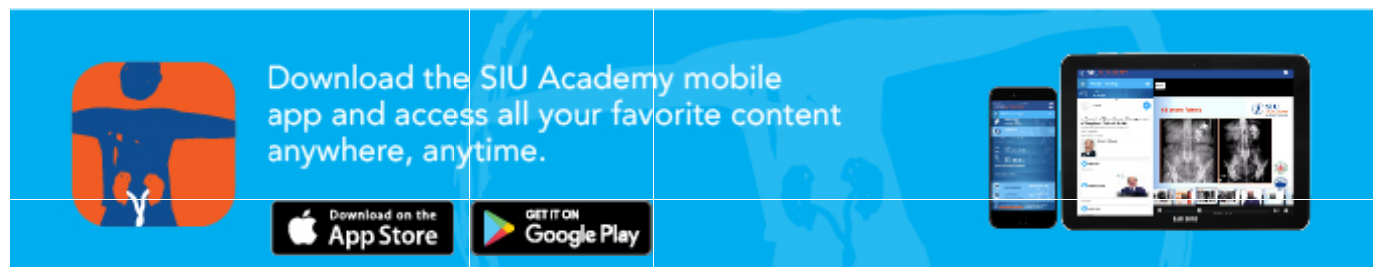

Our faculty of world-renowned experts, led by Prof. Jean de la Rosette and Prof. Lukas Lusuardi will dive deeper into cutting-edge surgical techniques for treating bladder cancer and stone disease. You can also expect an animated discussion on four intricate cases and surgical options. Get your questions ready and join the conversation!
